PRESS RELEASE

Clackamas Water Trail Update

June 2023, CLACKAMAS RIVER, OR

Hidden Treasure: Portland's most popular river float

As you look forward to floating a section of the Clackamas Water Trail this summer - picnicking or swimming at one of its parks, or fishing, canoeing, kayaking or drift boating its relatively gentle waters - visit the Clackamas Water Trail website (www.clackamaswatertrail.org) to help you plan your trip. Use it to explore a new section (and perhaps avoid the overcrowded Barton to Carver section) or learn more about the river you have known your whole life.

Created last year through a collaboration of local agencies and nonprofits (and managed by the nonprofits We Love Clean Rivers and Clackamas River Water Providers) the Clackamas Water Trail website provides river trip itineraries, safety tips, and general information of the natural history of the river and its watershed. It also highlights local outfitters and other information to safely and comfortably float the river.

Interactive Map

Most importantly, the website features an interactive map that shows key locations on the Clackamas Water Trail of public boat launches, local and state parks, ongoing river restoration sites, restrooms, all 72 named riffles and rapids, and river section distances with estimated float times. It's also fun to explore and learn more about the region around the river.

The online map and website sprung out of experiences with River Ambassador volunteers in 2019 to 2021, who noticed a lack of an informational website for the entire lower Clackamas and few river maps at the launches (and none for the entire 22 miles).

New Map Sign at Riverside Park

With the online map live for one year, the first outdoor map sign at a launch on the Clackamas Water Trail is being installed at Riverside Park. Built with native juniper posts and framed with western red cedar, the map sign is located in the prime gathering area at the top of the Riverside Park boat launch. It will also allow for Stash the Trash bags and loaner Life Jackets to hang from the structure.

The map design was created by award-winning cartographer, Dave Imus, and the rustic sign kiosk was designed by We Love Clean Rivers and built by volunteers. The thematic map design highlights the same attributes of the online map, and also shows the entirety of the 22 mile Clackamas Water Trail at a large scale and provides perspective for visitors.

While the website can provide real-time data about river conditions, the physical map can reinforce important landmarks for safety and learning (rapid names, bridges, parks, river miles, etc.). It also shows the proximity of the river to Oregon City, Portland (9 miles as the crow flies from map corner), and other towns in the vicinity.

The goal is to install these 4' X 3' metal map signs at each of the 7 boat launches and at 3 of the popular public access parks along the Clackamas Water Trail. Some will go with existing park signage; others will need their own new kiosk.

Visit the Clackamas Water Trail

Come soon to Riverside Park to see the map sign and kiosk. Whether you are their bank fish, picnic, watch a baseball game, swim or paddle, we welcome your feedback on the project.

And visit the Clackamas Water Trail anytime online at www.clackamaswatertrail.org and on-the-water when conditions are right. Either way we want to help you safely enjoy and steward the Clackamas River!

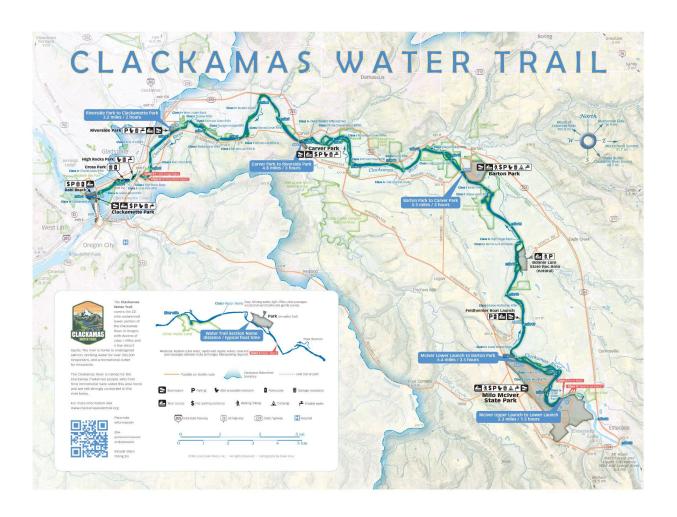

For more information about the Clackamas Water Trail, please contact **Matt Taylor** at **(541) 921-0316** or via email at **matt@welovecleanrivers.org**.
